

# Device Registration

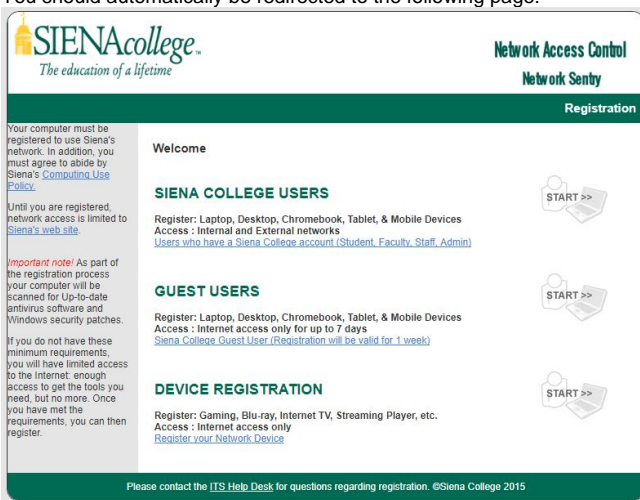

- Your computer must be registered to use Siena's network. In addition, you must agree to abide by [Siena's Computing Use Policy](#).
- Until you are registered, network access is limited to [Siena's web site](#), Apple.com, Google.com, Microsoft.com, and some antivirus providers so that you have access to software updates.
- **Important note!** As part of the registration process your computer will be scanned for [Up-to-date antivirus software](#) and Windows security patches.
- Windows comes with a free [anti-virus](#) program called Defender. If you are having trouble with 3rd party anti-virus software, please try using Defender.
- Devices that do not have a browser (ex. Gaming, Blu-ray, Smart TV's, etc.) will need to be manually registered

## How do you register?

### For devices that have internet browsers like Computers, Phones, Tablets, etc

1. Connect your device to a wired port or wireless connection on campus
2. Open the browser and try going to a website like cnn.com
3. You should automatically be redirected to the following page:

4. Follow the instructions on the registration portal

### For gaming systems, blu-ray players, smart TV's, streaming players, etc

1. Connect your device to a wired port or wireless connection on campus
2. Find the [MAC address for your device](#)

3. From an internet browser, browse to: <https://campusr.siena.edu/registration/> which will bring you to the following page:

The screenshot shows the Siena College Network Access Control Registration page. At the top left is the Siena College logo with the tagline "The education of a lifetime". To the right, it says "Network Access Control" and "Network Sentry". Below that is a green header with "Registration" in white. The main content area is divided into three sections: "SIENA COLLEGE USERS", "GUEST USERS", and "DEVICE REGISTRATION". Each section includes a "START >>" button with a laptop icon. On the left side of the page, there is a "Welcome" section and an "Important note!" regarding registration requirements. At the bottom, there is a footer with contact information for the ITS Help Desk and a copyright notice for 2015.

**Registration**

Your computer must be registered to use Siena's network. In addition, you must agree to abide by Siena's [Computing Use Policy](#).

Until you are registered, network access is limited to [Siena's web site](#).

**Important note!** As part of the registration process your computer will be scanned for Up-to-date antivirus software and Windows security patches. If you do not have these minimum requirements, you will have limited access to the Internet: enough access to get the tools you need, but no more. Once you have met the requirements, you can then register.

**Welcome**
